A Czech research organisation with rich experience in thermal spraying is seeking industrial partners to complement the consortium of a project within M-ERA.NET. The project will focus on the development on new reliable and safe thermal spray coating solutions as food contact materials. The sought partners should focus on food industry and are expected to act as project's advisory board members.

Deadline for EOI: 31 Oct 2021

Deadline of the Call: 17 Nov 2021
